“Strive for perfection in everything you do. Take the best that exists and make it better. When it does not exist, design it”

- Rolls Royce

Job Perfection

Quality you can feel. The Stabil treatment table provides guaranteed quality with optimum functionality, ensuring no down time in your practice through product failure.

It's Your World

You spend most of your day in the practice, so having a pleasurable and lovable working space is a must.

Extraordinary design, from top to bottom

The Stabil colour palette and choice of trim have been carefully selected and crafted to create a lovable yet stimulating working environment.

Paper roll holder fitted as standard.

The Standard For Treatment Tables Just Got Higher

Stabil utilises the latest technology and innovation to take the standard of treatment tables to the next level.

This not only allows you to enjoy providing more services and treatments, but also strengthens the identity of your brand and practice.

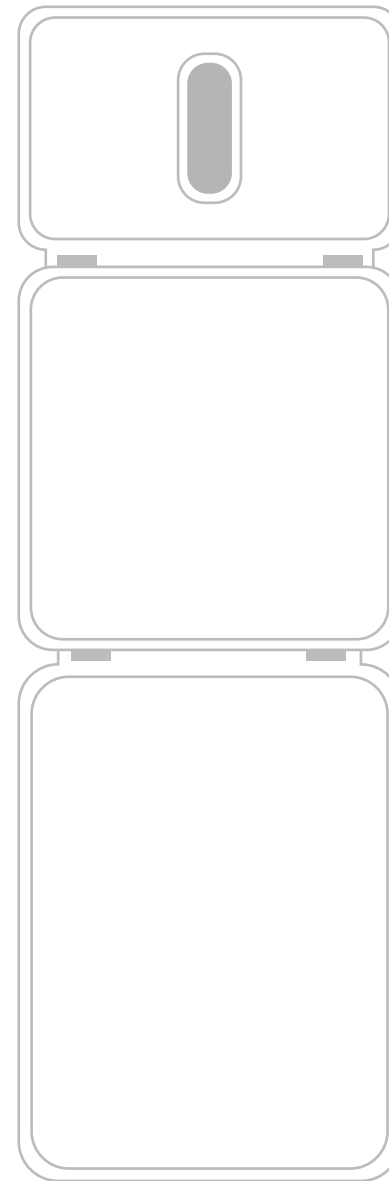

Luxury and Freedom

PREMIUM UPHOLSTERY

Firm though comfortable, Stabil have been finished with a premium quality upholstery that is easy to clean, antibacterial and fire retardant.

All cushions have padded edges to ensure no pressure points.

A luxurious finish to the upholstery ensures it displays the true professionalism of your practice and helps you offer top service to your clients

Patient's Enjoyment and Happiness

CONFORMEX Face Support

Through innovation and testing the ergonomic Conformex face support has been designed to minimize pressure marks and ensure patients comfort during treatment.

Hygiene In Your Practice

SPOTLESS TECHNOLOGY

Stabil features Spotless Technology - an attractive closed base system that hides all electrical components making the table look spotless.

It makes cleaning your table an absolute breeze, and the unique design help portray your professionalism to your clients

CODE: 1004U-65BB-360

Perfect Conditions For Treating

Stabil Treatment Tables Profile, FSP

Stabil have developed a smart system, known as FSP, that guarantees a stable working platform. FSP means that the manipulation force is spread evenly across the frame. Feel the patient move, not the couch!

An All-Rounder

The Stabil intelligent systems i-TOUCH and i-MOVE are world leading technology and innovation.

i-TOUCH

The intelligent all round 360° operation system can be reached from anywhere around the table in a safe and easy manner. This facilitates easy and accurate height adjustment leaving both hands free for treating.

i-MOVE

The intelligent transport mechanism can be reached from anywhere around the table allowing easy transportation and table positioning

- Foot operated from both sides
- Easy to lift up onto its wheels
- Easy to lower down again

GERMAN MADE

German manufactured and engineered electronics. These electronics are quiet, tough and intelligent for many years of hassle-free service.

Professionalism

Important points to consider when buying an electric treatment table

You need answers to these questions:

- What brand is the motor, control box, and foot pedal?
- What is making the table so much cheaper or more expensive?
- What warranty(s) does the table have?
- What is included with the table? Everything shown in the picture?
- What base does the table have? How does it raise and lower?
- Does the base have retractable castors?
- What is the max working load of the table?
- Are the sections gas assist or ratchet?
